Areas of study that a student may select for concentration:
1. Clinical pharmacology
2. Immuno pharmacology
3. Anti-inflammatory pharmacology
4. Molecular Pharmacology
5. Safety/efficacy/identity of herbal components
6. Animal models in pharmacology

Details of Scholarships
1. The Siriraj Graduate Scholarships.
2. The Siriraj Graduate Thesis Scholarships.

Additional advantages of the programme
1. The research environment in the department provide an opportunity for graduate student to conduct corresponding basic and clinical research.
2. Student will be trained to understanding question physiology and pathologic condition of diseases.
3. The facilities of the Department of Pharmacology and the core facilities of the Faculty of Medicine provide state of the art research in students for biomedical science.
4. A recently implemented program in new drug development provides a huge resource of biomedicines with accompanying clinical training opportunity. This is a collaborating project with EU which will be the first program in Asean community.
