# Master of Science Programme in Medicine (International Programme)

## Faculty of Medicine, Siriraj Hospital

# The program offers 7 concentrations:

1. Pediatrics	Admission No.	2	0	3	8	М	G	0	1
2. Opthamology	Admission No.	2	0	3	8	М	G	0	2
3. Neurology	Admission No.	2	0	3	8	М	G	0	3
4. Anesthesiology	Admission No.	2	0	3	8	М	G	0	4
5. Otorhinolaryngology	Admission No.	2	0	3	8	М	G	0	5
6. Orthopaedics	Admission No.	2	0	3	8	M	G	0	6
7. Respiratory Sleep Medicine	Admission No.	2	0	3	8	М	G	0	7

#### **Admission Requirements**

A candidate must:

## Plan A, Type A(2)

- 1. hold a Bachelor's degree in Medicine from a university in Thailand or overseas which is accredited by the Office of Higher Education Commission, Thailand
- 2. have a minimum grade point average of 2.50 or equals
- 3. have a good English proficiency in reading, listening, speaking and writing
- 4. Exceptions to the mentioned conditions item 1 and 2 can be made only by the Program Director, Administrative Committee of the Faculty of Medicine Siriraj Hospital and the Dean of the Faculty of Graduate Studies, Mahidol University

## Plan B

- 1. hold a Bachelor's degree in Medicine from a university in Thailand or oversea university which is accredited by the Office of Higher Education Commission, Thailand
- 2. have a minimum grade point average of 2.50 or equals
- 3. Must have working experience in Pediatrics, Ophthalmology, Anesthesiology, Orthopaedics, Otorhinolaryngology or Medicine
- 4. Have a good English proficiency in reading, listening, speaking and writing
- Exceptions to the mentioned conditions item 1 and 2 can be made only by the Program Director, Administrative Committee of the Faculty of Medicine Siriraj Hospital and the Dean of the Faculty of Graduate Studies, Mahidol University

### Areas of study that students may select for concentration:

Pediatrics, Ophthalmology, Neurology, Anesthesiology, Orthopaedics, Otorhinolaryngology Respiratory Sleep Medicine

## Additional advantages of the programme

The programme includes both medical specialty and research

#### **Details of Scholarships**

Scholarships supported by the Faculty of Graduate Studies

# 1. The 60th Year Supreme Reign of His Majesty King Bhumibol Adulyadei

#### Type I:

The scholarship recipient will be waived of graduate tuition fees for the courses under the student's degree program /Work-Site Study Fee / Equipment and Facilities Fees / Research Supplies Fee

#### Type II:

The scholarship recipient will be waived of graduate tuition fees for the courses under the student's degree program only.

However, the scholarship recipient will be paid for Education Services and Thesis Registration/Thematic Paper Registration according to the announcement of "Tuition fee for Graduate Students in the International Programs, Mahidol University, Year 2012" Mahidol University.

#### Inclusion

The scholarship recipient will be waived of the graduate tuition fees for the courses under the student's degree program only.

#### Duration of the scholarship

Master's degree level, the scholarship will be provided for a period not exceeding 2 years.

#### 2. Scholarships for Graduate Research Presentations at National Level Seminars

More information please visit website www.grad.mahidol.ac.th/grad/scholarship

## Proposal / Concept Paper

Nowadays, international students especially in neighboring countries as Cambodia, Laos PDR, Myanmar, Vietnam, Nepal, Bangladesh and Bhutan are interested in training to be medical specialist in Thailand. But the medical licenses are restricted for physicians who can take examination in Thai which are very difficult for foreigners. Therefore, the credentials that international trainees will receive are the certificate from institutes. Some trainees would like to have an academic credential together with certificate in specialty. So, Master of Medicine Program can serve both objectives.

#### Additional information for applicants

Hearing Thai Language would be beneficial to applicants to communicate with patients and colleagues.

## Job option after graduation

- 1. To be a specialist Medical Doctor in any of the following fields: Pediatrics, Ophthalmology, Neurology, Anesthesiology, Otorhinolaryngology, Orthopaedics, Respiratory Sleep Medicine
- 2. To be a researcher in any of the following fields; Pediatrics, Ophthalmology, Neurology, Anesthesiology, Otorhinolaryngology, Orthopaedics, Respiratory Sleep Medicine
