Font: type with Times New Roman in the size of 14 points with upper case, bolding and line spacing: 1.5 line

2 cm.

Indent = 2 cm. or
1 Tab = 2 cm.

3.75 cm.

The references or Bibliography section is the list of books, Journals, articles, documents and other information sources that were used in course of writing the thesis. The section serves to support the quality of the information used.

The References or Bibliography will come after the Main Body and conclusions, but before the appendices.

The word "References" is used in the Sciences and Technology, while the word "Bibliography" is used in the social sciences. The function of both is the same.

Font: type with Times New Roman in the size of 12 points with regular style and capital letter for the initial letter and letters must be alignment "Justified" and line spacing: 1.5 line

For a Thai Language :
Font: type with Angsana New in the size of 16 points normal and capital letter for the initial letter and letters must be alignment "Justify" and single line spacing.
