* These May Change in Cases Where There are Suggestions for The Improvement of The Curriculum

Additional advantages of the programme

This program differs from other programs currently offered in Mahidol University. We use the tools of Social Sciences e.g. theoretical concepts and methodology to understand and propose solutions to manage with health problems. Furthermore, this program will create better management of health inequity through the mobilization of alumni, the government sector, private sector and scholarship organizations in various countries in this region and other regions to develop human resources in the field of Health Social Science by providing the opportunity for graduate study access of potential students who lack the opportunity to do so.

This program aims to respond to the problem of the impact of regional transformation in society and health by utilizing the framework of lecture and research that is expecting of students.
